Under the requirements of the Flood and Water Management Act 2010, Bury Council, as Lead Local Flood Authority, must develop, maintain apply and monitor a strategy for local flood risk management in its area.

The Local Flood Risk Management Strategy (LFRMS) will manage local flood risk from surface water, groundwater and ordinary watercourses. The purpose of the LFRMS is to outline Bury Councils approach to this role and to local flood risk management in the Borough. The Strategy forms a policy document which sets out an action plan for implementation measures.

The impacts of implementation of these policies on particular equality groups will be no different to the general population. Once implemented, the Strategy will have a positive contribution in terms of protecting those at greatest risk in terms of flood risk.
