England average: 83.0

112,000

People on long-term sick and inactive

12,000 Children

Not school ready

The journey so far

Devolution timeline

Our transformation themes

The building blocks of transformation

- Local care organisations coordinate delivery of integrated care in each borough
- Boroughs are made up of smaller neighbourhoods - GP practices working with other health and care professionals
- Standardisation across hospital sites and more care in the community, closer to home
- A single local commissioning function in each borough plus a GM Commissioning Hub

Improving the health of all GM residents

What we have done.....

- Making smoking history strategy launched
- £1.5m investment in oral health programme
- GM Diabetes prevention programme
- 'Focussed care' workers in GP practices
- £500k investment to tackle nutrition and hydration
- £134m mental health investment strategy
- Learning disabilities – GM specialist support team commissioned
- Learning disabilities - 8 locality-housing schemes, including flats and supported housing
- Over 2000 cancer champions recruited
- Children's health and wellbeing board established
- 4 homelessness and health commitments
- MOU with voluntary sector signed
- Pride in practice – 94 outlets achieved standard

Improving the health of all GM residents

What's next.....

- Midwifery assistants to work across localities to combat smoking in pregnancy
- Daily supervised tooth brushing in primary schools
- Roll out a lung health-check programme across GM
- 7 day crisis care for young people and their families
- Autism strategy and autism friendly city initiative
- Proton beam therapy plans to treat from Aug 2018
- Developing homelessness and health delivery plan
- Joint commissioning of Learning Disability services across GM?
- MOU with faith sector
- Provision of mental health support in schools

Transforming community based care

What we have done.....

- Increased access to routine GP care
- GP excellence programme
- GM Primary Care Workforce Framework
- Urgent and emergency care hub in place 1st Nov
- People powered health in localities
- GM Maternity Strategy
- Developed Local Care Organisations

Transforming community based care

What's next.....

- GM wide expansion of personal health budgets
- GM good practice model for social prescribing
- Urgent treatment centre in all localities
- 7 day primary care services
- GM quality programme for excellence in social care
- Full implementation of Healthier Together changes

Local Care Organisations

- Neighbourhood teams
- Expansion in primary care
- Population health management
- Understanding population health needs
- Prevention
- Technology
- Asset based approaches

Enabling better care

What we have done.....

- GM Workforce Transformation Strategy
- Digital Transformation Fund
- Estates strategies developed in each locality
- GM Medicines Optimisation Strategy
- Your Medicines Matter campaign

Enabling better care

What's next.....

- Single online portal health and social care careers information
- Funding for pan-GM Mental Health Estates Strategy
- Continued progression of joint commissioning arrangements
- GM Medicines Optimisation Implementation Plan
- Delivery of GM collaborative image sharing in radiology

The challenges looking ahead

- Pace and scale of transformation, whilst delivering services in a complex environment (operational and financial challenges)
- Development of locality models vital to delivery – a lot to do in a short time
- Residents need to start to feel the impact of devolution and the integration of delivery
- As a partnership we are clear on what we want to achieve, we need to continue working together to do that
- Alignment of the work between the GM HSCP and the GMCA
- Managing the expectations of national bodies and regulators
