

A Shared Hospital Service, for our shared population

## There are three linked programmes of work ongoing across Manchester

	Objectives	Outputs	Scope	Timescales
NES Clinical Services Transformation	<ul> <li>Develop a commissioner-led plan to secure the clinical, financial &amp; workforce sustainability of acute services by 24/25 for the NES and related sites at Salford and North Manchester</li> </ul>	<ul> <li>Definitive preferred reconfiguration of sites that can be taken for public consultation if needed</li> </ul>	<ul> <li>All 3 NES sites, FGH, RI and ROH</li> <li>NM site</li> <li>Salford site</li> </ul>	<ul> <li>Preferred option         <ul> <li>(s) to be decided</li> <li>by end of</li> <li>October/Novem</li> <li>ber</li> </ul> </li> </ul>
Pennine Acute Transaction	Develop a trust-led plan showing the benefits to both SRFT and PAHT in terms of the clinical, financial & workforce sustainability of acute services, as a result of the acquisition of FGH, ROH and RI by SRFT	<ul> <li>Preferred set of services for each of the PAHT sites</li> </ul>	<ul> <li>All 4 NCA sites –FGH, RI, ROH and NMGH</li> </ul>	<ul> <li>Likely high-level options to have been modelled by start of September</li> </ul>
GM Theme 3	<ul> <li>Develop a linked Greater Manchester acute and specialist service model</li> </ul>	<ul> <li>Proposals for how a number of clinical specialties could be delivered across the hospitals in GM</li> </ul>	■ All GM sites	<ul> <li>High level mode by October</li> <li>Further work in the months afte October</li> </ul>

## **NES Clinical Services Transformation Programme**

### The aim of the programme

- The aim of this programme is for North East Sector commissioners and providers to codevelop a plan that secures the clinical, financial and workforce sustainability of all acute services by 2020/21.
- The plan should complement wider LCO plans to strengthen community support, deliver more care closer to home and maximise the use of all estate within the 3 CCG / LA coterminus footprint.

### By end of October/November 2018

An agreed acute clinical service strategy, approved by all partner organisations, which can subsequently be taken to public consultation should this be required.

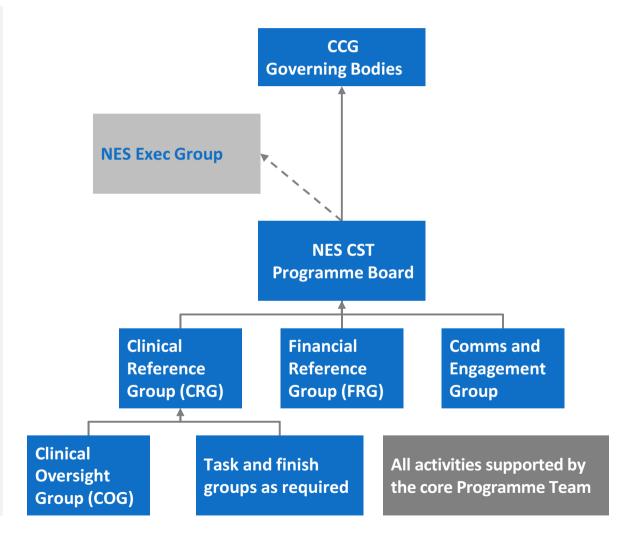

### A governance structure has been agreed for the programme

### **Roles and responsibilities**

- A final decision about what option(s) to consult on will need to be made by the CCG Governing Bodies, in line with their statutory duties.
- The final recommendation to the CCG Governing Bodies will be made by the Clinical Services Transformation (CST) Board, who are responsible for overseeing the progress of the review.
- All other groups will be responsible for debating and agreeing key issues and assumptions to inform the CST Board.

## We need to be able to answer the following five questions through the process we have established:

- 1. What is the case for change from a clinical, workforce and financial perspective, and which services are most impacted?
- 2. What evaluation criteria should be used to assess the options?
- What are the range of clinical models that could underpin any future service configuration options?
- 4. What is the shortlist of service configuration options that we should assess against the evaluation criteria?
- 5. How do those options stack up against the evaluation criteria?

### **Summer 2018**

**Case for Change** 

What is the current picture of healthcare in our area?

**Evaluation criteria** 

What are the outcomes we want to achieve?

### Autumn 2018

**Emerging clinical** models

What does good look like and how could it be delivered?

**Service options** 

How could we deliver this in our area

Using public health, hospital performance and quality information etc

## The Case for Change

The local population is growing and getting older, worsening already poor outcomes .....

... and requiring a different sort of care to that historically provided ...

... resulting in decreased hospital activity and potentially better health outcomes ......

which will put further pressure on already fragile acute services

...considering how services are currently designed offers a way to address fragile acute services

The Case for Change will published once agreed through our governance

### Summer 2018

**Case for Change** 

What is the current picture of healthcare in our area?

Using public health, hospital performance and quality information etc

**Evaluation criteria** 

What are the outcomes we want to achieve?

**Co-designed with** patients, clinicians, commissioners, Healthwatch, etc

### Autumn 2018

**Emerging clinical** models

What does good look like and how could it be delivered?

**Service options** 

How could we deliver this in our area

# Reminder: Evaluation criteria Reminder: Evaluation Commissioning Group Reminder: Evaluation Criteria

	Criteria	Sub-criteria	Description
1	Quality of care for all	<ul> <li>Clinical effectiveness</li> </ul>	<ul> <li>Improved delivery against clinical and constitutional standards, access to skilled staff and specialist equipment, comparison of current clinical quality of sites</li> <li>Supports integration and co-ordination of pathways with community and primary</li> </ul>
		<ul> <li>Patient and carer experience</li> </ul>	care
			<ul> <li>Improved patient and carer experience with excellent communication &amp; good</li> </ul>
		Safety	Expected impact on excess mortality, serious untoward incidents
2	Access to care for all	<ul> <li>Distance and time to access services</li> </ul>	<ul> <li>Impact on population weighted average travel times (blue light, off-peak car, peak car, public transport) to reflect average impact for emergency and elective treatment and total impact for more isolated populations</li> <li>Improved delivery and reduce variation in patient outcomes and health inequalities</li> </ul>
		<ul><li>Service operating hours</li></ul>	<ul> <li>Ability of model to facilitate 7 day working and improved access to care out of hours</li> </ul>
		Patient choice	<ul> <li>Provides patients with choice in line with their rights in the NHS constitution</li> </ul>
	Affordability	<ul> <li>Capital cost to the system</li> </ul>	Capital requirement to achieve required capacity & quality
	and value for	<ul><li>Transition costs</li></ul>	<ul> <li>One off costs (excl. capital &amp; receipts) to implement changes</li> </ul>
3	money	<ul> <li>Net present value</li> </ul>	<ul> <li>Total value of each potential option incorporating future capital and revenue/cost implications and compared on like-for-like basis</li> </ul>
		<ul> <li>Meets regulatory requirements</li> </ul>	<ul> <li>E.g. Surpluses generated by Foundation Trusts</li> </ul>
4	Workforce	Scale of impact	<ul> <li>Supports new workforce models which reflect new ways of working and education and training needs.</li> </ul>
		<ul> <li>Sustainability</li> </ul>	Potential impact on current staff and retraining required
		<ul> <li>Impact on local workforce</li> </ul>	<ul> <li>Likelihood to be sustainable from a workforce perspective, facilitating 7 day working and addresses any other recruitment challenges</li> <li>Potential impact on staff attrition due to change</li> </ul>
	Deliverability	Expected time to deliver	Ease of delivering change within 5 years
5	-	<ul> <li>Co-dependencies with other strategies</li> </ul>	<ul> <li>Alignment with other strategic changes (e.g. STP, any other national and local NHS strategies) and provides a flexible platform for the future</li> </ul>

### **Summer 2018**

**Case for Change** 

What is the current picture of healthcare in our area?

**Using public** health, hospital performance and quality information etc

**Evaluation criteria** 

What are the outcomes we want to achieve?

**Co-designed with** patients, clinicians, commissioners, Healthwatch, etc

### Autumn 2018

**Emerging clinical** models

What does good look like and how could it be delivered?

**Service options** 

How could we deliver this in our area

Clinicians have been review been reviewing different clinical models

### **Summer 2018**

**Case for Change** 

What is the current picture of healthcare in our area?

Using public health, hospital performance and quality information etc.

**Evaluation criteria** 

What are the outcomes we want to achieve?

clinicians, commissioners, Healthwatch, etc.

### Autumn 2018

**Emerging clinical** models

What does good look like and how could it be delivered?

How could we

**Service options** 

deliver this in our area

**Clinicians have** been review been reviewing different clinical models

Clinicians are in the process of designing and modelling options

To be confirmed

# The process – next steps

### Winter 2018/19

**National and local** assurance

processes

CCGs will make a decision about consultation

**Implementation** 

**Identify preferred** 

options

What are the

possible options for delivery in our area?

**Evaluation** criteria will be used to assess to identified the preferred option

External clinical leaders and experts will check our proposals are robust, evidence-based and deliverable

## How are public and patient views captured?

- Patient outcomes and experience metrics.
- Healthwatch data and feedback from each locality.

**Evaluation** Criteria

- Sessions held with patient groups and Council of Governors to discuss.
- Engagement representative of Pennine footprint.

**Ongoing** engagement by **PAHT and CCGs** 

- Healthwatch continuing critical friend role.
- Briefings for all stakeholders

**Formal** consultation if changes to services

 CCG and PAHT establishment of a communication plan.

## **Future plans for NMGH**

- All health partners agree NMGH has a vital role to play in the city and will continue to provide a range of hospital services, including A&E, maternity and paediatric care
- The vision for NMGH is that it will be:
- A vibrant site providing high quality effective services with excellent patient experience
- A well-connected hospital; integrated with on-site mental health services, services in the community, and local people and communities
- A hospital which generates jobs and growth in the local economy
- A hospital with 21st century estates and IT
- A sustainable hospital, both clinically and financially
- NMGH site provides opportunity to invest in new facilities and services which can play a
  role in improving the health & wellbeing of the local population in Manchester and beyond
- Recent investment includes new £5m purpose-built Crumpsall Vale intermediate care unit
- Plans progressing for NMGH to transfer and become an integral part of Manchester NHS
  Foundation Trust (MFT) in second part of 2019/20, whilst simultaneously Royal Oldham,
  Fairfield General & Rochdale Infirmary sites formally join Salford Royal as part of the
  Northern Care Alliance NHS Group.

# Questions?
