Responding to a member's question with regards to the overspend within Children Young People and Culture; the Cabinet Member for Finance and Housing reported that the forecasted overspend is based on an assumption that the number of exclusions will reduce and there will be a significant reduction in out of borough placements.

The Interim Executive Director Resource and Regulation reported that the forecasted overspend within the Children Young People and Culture Department would only include predicted spend in relation to Looked after Children that are already known to children's services.

With regards to concerns raised in respect of Senior Officer recruitment, the use of consultants and the loss of front line staff; the Cabinet Member for Finance and Housing reported that there has been significant cuts to the senior leadership team in the last five years. The £100 million cuts and reduction in senior leaders within the organisation has resulted in a loss of executive capacity and expertise to enable and deliver the required transformational and growth agenda. The recruitment of additional senior leadership posts will allow for additional capacity and help to deliver on the transformation agenda.

The Cabinet Member for Finance and Housing reported that the Council will need to be self-financing and solely reliant on Council Tax and business rates for its income by 2020. Work streams have been developed to assess and understand what this will mean for the Council post 2020.

Members discussed joint working arrangements between the CCG and the Council, economies of scale and joint commissioning. The Interim Executive Director, Resource and Regulation reported that by April 2019 the Council and the CCG will be one single commissioning entity, representatives from the CCG now attend the Council's Senior Leadership team and jointly share building space.

The leader reported that in areas where the performance is the best in Greater Manchester, the Council would want to stretch itself to be the best nationally or the best amongst its statistical neighbours.

Responding to a question from the Chair, the Leader confirmed that performance information is under constant review, dependent on the indicator some information is monitored weekly or monthly, other more complex information is gathered quarterly.
