2. Introduction / Background

- 2.1 Bury's Locality Plan: Transforming Health and Social Care, sets out the borough's ambitious programme to transform health, adult social care, children's and public health services by 2021, securing a sustainable health and care system whilst improving health and wellbeing, ensuring that all people have a good start and enjoy a healthy, safe and fulfilling life.
- 2.2 This report updates the Health and Wellbeing Board on progress made by the LCA to deliver transformation programmes within that plan.

3. key issues for the Board to Consider

- 3.1 This report details a set of key priorities for the LCA to deliver. In the short term this involves supporting system resilience over the winter period, in the longer term this involves the delivery of 5 integrated neighbourhood teams, supported by an integrated intermediate tier of services with a single point and offer of rapid response for the workforce for patients they are concerned about.
- 3.2 Therefore from 1 April 2019 it is expected that the system will be working in a different way to support the ambitious programme described in the Locality Plan (as per 2.1).
- 3.3 A range of successes regarding transformation delivery can already be articulated; a particular focus on the successes of the Urgent Care programme is described in the attached slides.

4. Recommendations for action

4.1 Health and Wellbeing Board is recommended to:

- i. Note progress made to further mobilise the transformation programmes and in particular the successes of the Urgent Care programmes..
- ii. Acknowledge the important changes to the health and social care system which will be in place from 1 April 2019.

5. Financial and legal implications (if any)

If necessary please seek advice from the Council Monitoring Officer Jayne Hammond (J.M.Hammond@bury.gov.uk) or Section 151 Officer Steve Kenyon (S.Kenyon@bury.gov.uk).

6. Equality/Diversity Implications. Please attach the completed Equality and Analysis Form if required.
