

Car Parking Services

Enforcement Restart Process

Background

- Complaints are now coming through on a regular basis from residents and businesses about instances of vehicles parking in contravention and causing issues.
- This is a request to restart enforcement in order to maintain highway safety and not in connection with car parking charges.

20 July 2020 - Soft Start

- Car parking enforcement to commence (on-street & off-street) with only “warning notices” issues rather than full Penalty Charge Notices (PCNs);
- All parking appeal cases that have been hibernated to be “thawed” and continue.

Communications

- Use of press releases and social media accounts to inform the public of the upcoming changes.

03 August 2020 - Full Start

- Car parking enforcement to move to full PCN issue for contraventions.
- Bus lane enforcement to commence fully.
