

1

**Vision**

To improve the quality of care and outcomes for children, young people and adults in Bury with learning disabilities or autism who have mental health conditions or behaviour that challenges. Service users will receive safe, appropriate, high quality care delivered locally to allow people to remain in their communities.

2

**Objective One**

Develop a fully integrated all age disability service working with people with complex needs from birth to death with pooled budget arrangements

**Objective Two**

Provide safe, high quality care in line with the national service specification and the requirements of the Winterbourne View concordat

**Objective Three**

Enhanced Support Services are of a high standard and closer to home

**Objective Four**

Enhancement of local crisis management options

**Objective Five**

Appropriate health, social care and education services/pathways are in place locally to support service users with intensive support needs

**Objective Six**

Engagement of local people, their families/ carers and providers and key stakeholders in the development and implementation of local plans

4

**Actions:**

- Business Case to be shared with relevant CCG and LA Boards and preferred option to be agreed

**Actions:**

- Development of joint commissioning standards between health, social care, education
- To develop competent providers able to deliver appropriate support packages
- Agree service specifications to reflect commissioning standards
- Monitoring of contracts to ensure services are delivered in line with the agreed standards
- Ongoing review of service users who receive complex care packages by the CCG and LA

**Action:**

- Support the work across Lancashire and GM ESS to move to a cost per case model for ESS Contract
- Review the risk share agreement across GM for current service
- Support the work across Lancashire and GM CCGs to develop a provider framework

**Action:**

- Mapping of the current crisis capacity within Bury and explore/ appraise local options to enhance provision
- Work with GM CCGs to explore opportunities for collaborative commissioning arrangements

**Action:**

- Map the current educational packages received by children with LD in Bury, including transitional arrangements and identify gaps in provision that are leading to children going OOA
- Work with key stakeholders to understand the local requirements for intensive support and map the current health and social care services in place to identify gaps in provision that are leading to people going OOA
- Develop plans to address any gaps in local provision

**Action:**

- Development and dissemination of a joint engagement plan
- Refresh of Bury's LD Strategy

5

**Overseen through the following governance arrangements**

- Clinical Cabinet
- CCG Governing Body
- LD Partnership Board
- HWBB
- Health Scrutiny Committee
- Bury Council SMT
- Children's Trust

3

**Measured using the following success criteria**

- Reduction in out of area placements
- Reduction in unnecessary hospital admissions
- Service users being stepped down into community based services
- Integrated commissioning for EHC plans for SEND
- Strengthening of transitional arrangements for young people moving into adulthood
- Early identification of people likely to require complex health and social care packages

6

**System values and principles**

- Reduce inequalities and improve outcomes
- Deliver transformational change
- Develop capability as commissioners and leaders
- Deliver improvements via QIPP to create high quality sustainable services
- Ensure citizenship, self-care and prevention is at the heart of what we do
- Person centred and evidence based
