

REPORT FOR INFORMATION

DECISION OF:	PLANNING CONTROL COMMITTEE
DATE:	28 th January 2025
SUBJECT:	SECTION 106 OBLIGATIONS
REPORT FROM:	DEVELOPMENT MANAGER
CONTACT OFFICER:	SOPHIE BLEASDALE
TYPE OF DECISION:	COUNCIL OR EXECUTIVE (NON KEY DECISION)
FREEDOM OF INFORMATION/STATUS:	This paper is within the public domain
SUMMARY:	THE REPORT OUTLINES THE CONTRIBUTIONS MADE BY S106 OBLIGATIONS BETWEEN 1 APRIL

	2023 AND 31 MARCH 2024 AND SUMMARISES AGREEMENTS THAT ARE OUTSTANDING.
OPTIONS & RECOMMENDED OPTION	TO NOTE THE REPORT
IMPLICATIONS:	
Corporate Aims/Policy Framework:	Do the proposals accord with the Policy Framework? Yes
Statement by the S151 Officer: Financial Implications and Risk Considerations:	Executive Director of Resources to advise regarding risk management N/A
Statement by Executive Director of Resources:	n/a
Equality/Diversity implications:	No (see paragraph below)
Considered by Monitoring Officer:	n/a
Wards Affected:	All
Scrutiny Interest:	NO

1.0 BACKGROUND

- 1.1 Section 106 (S106) Agreements are legal contracts between the Local Planning Authority and the developer / landowner which include obligations that are essential to allow the granting of planning permission in certain circumstances. These obligations are then secured as a land charge on any successive landowner of the application site, should the site be sold on and developed by someone other than the applicant.
- 1.2 The details of the obligations are controlled by statute and must pass the following three tests if they are to be considered when determining an application for planning permission:
- a) necessary to make the development acceptable in planning terms;
 - b) directly related to the development; and
 - c) fairly and reasonably related in scale and kind to the development.
- 1.3 Obligations often involve the payment of financial contributions, for example recreation contributions, compensation for the loss of employment land and contributions towards ecological enhancements. On receipt by the Council, these contributions are effectively held on trust, to be spent in accordance with the terms of the s106 Agreement.

- 1.4 Section 106 Agreements may also include non-financial obligations such as provision of on-site affordable housing, access paths or the transfer of land.
- 1.5 The Infrastructure Funding Statement appended to this report outlines the contributions provided by S106 obligations in the 12 months from 1 April 2023 to 31 March 2024 and identifies those Agreements where obligations are outstanding and those where triggers have not yet been reached.
- 2.0 2023/24 SUMMARY**
- 2.1 Over the twelve-month period from 1 April 2023 to 31 March 2024, Section 106 agreements have resulted in £246,462.69 of investment into the Borough, and £867,128.08 of income to the Council.
- 2.2 As of 31st March 2024, the Council had around £6,116,361.39 of unspent S106 contributions. In order to improve clarity regarding S106 contributions, this year's report includes a column detailing the amount of unspent unallocated contributions.
- 2.3 As of 31st March 2024, £4,857,354.82 of the unspent S106 contributions has been allocated to specific projects, though it may take time to deliver and for expenditure to be drawn down. This equates to 79% of unspent funds. £1,259,006.57 was unallocated, however work to allocate these monies is ongoing and an additional £356,825.22 has since been allocated in the 2024 calendar year.
- 2.4 Table 1 below summarises income and expenditure in the twelve months from 1 April 2023 to 31 March 2024, and unspent contributions as at 31st March 2024.

Table 1: S106 Income, Expenditure and Balance¹

Expenditure type	Contributions received 1 April 2023 to 31 March 2024	Total amount spent 1 April 2023 to 31 March 2024	Total value of unspent contributions as at 31 March 2024 ²	Total value of unallocated contributions as at 31 March 2024
Recreation, local nature reserves and open space	£679,750.93	£141,789.84	£2,833,187.33	£0.00
Affordable housing	£35,875.00	£1,350.00	£2,086,250.16	£891,776.66
Employment	£0.00	£52,675.00	£587,633.53	£356,825.22
Highways	£151,502.15	£50,647.85	£575,891.91	0

¹ Please note that the figures in the table represent a snap shot in time and may not be entirely consistent with previous reports as expenditure from S106 contributions is confirmed at financial year end and interest is added to the balance. Income figures are based on the twelve month period from 1 April 2023 and 31 March 2024, and total balances are as at 31 March 2024.

² Please note that these figures may differ from the 2022-2023 Infrastructure Funding Statement following an internal audit into S106 finances which has corrected some figures.

Public art	£0.00	£0.00	£33,398.46	£10,404.69
TOTAL	£867,128.08	£246,462.69	£6,116,361.39	£1,259,006.57

Figure 1. S106 income and expenditure 2023-2024

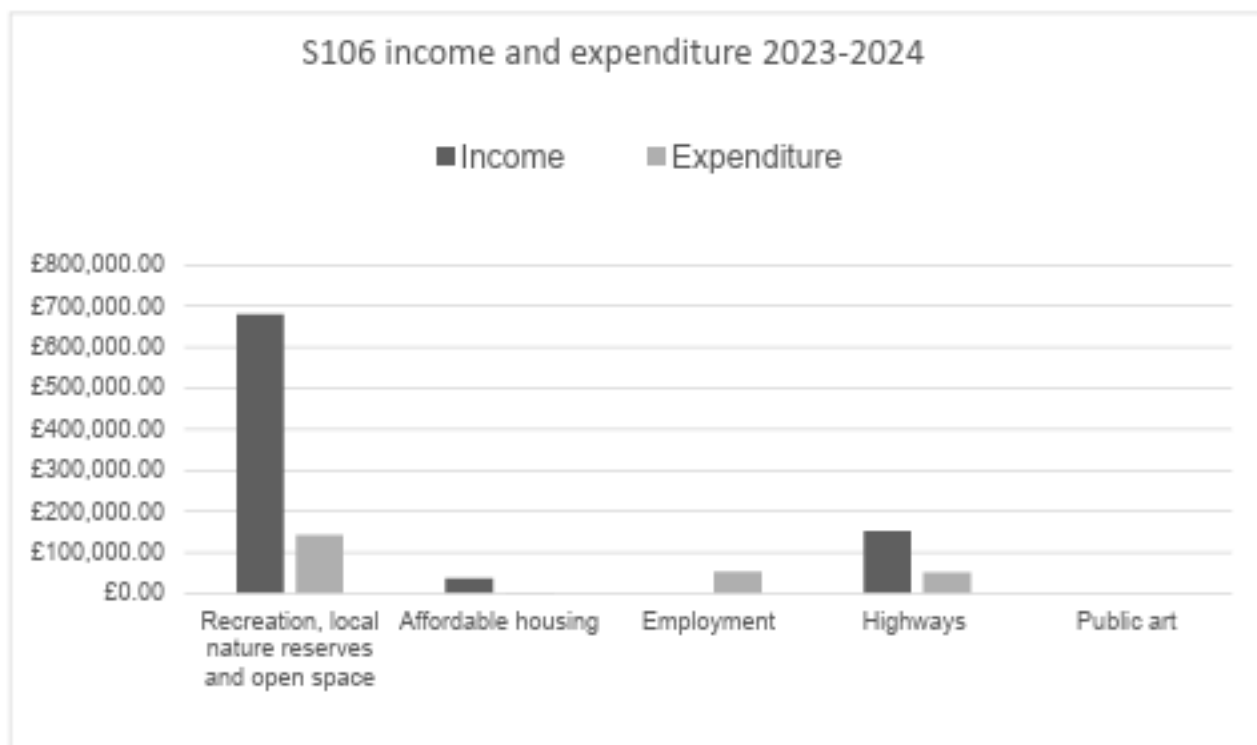

Figure 2. Total value of unspent S106 monies

Figure 3. Types of S106 contributions allocated and unallocated at 31st March 2024

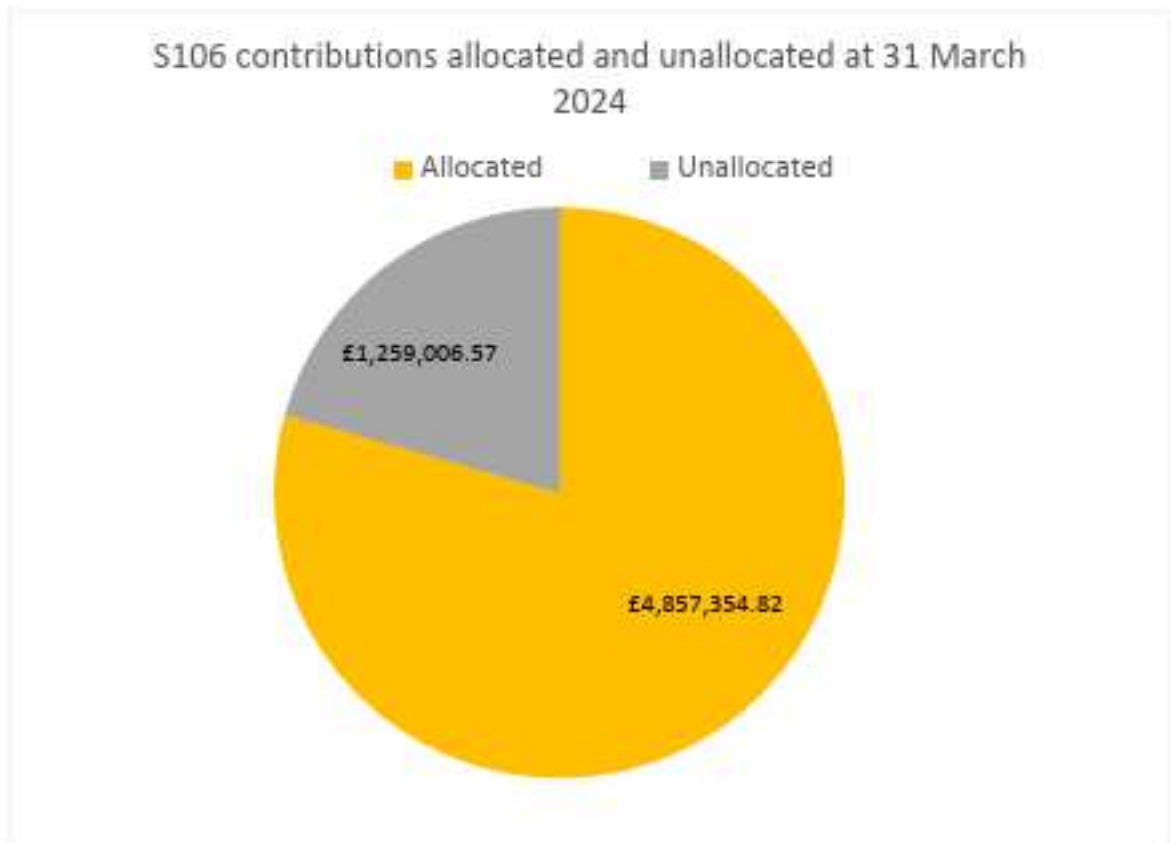

Figure 4. The total amount of unspent S106 contributions allocated and unallocated as at 31st March 2024

- 3.1 It is important to note that a time lag between receipt and expenditure of contributions is to be expected, as funds have to be allocated to specific schemes (for contributions from S106 agreements signed prior to 6 April 2015), and in some cases contributions are for the long-term maintenance of land that has been or is awaiting transfer to the Council.

3.0 SCHEMES PROVIDED AND OBLIGATIONS COMPLIED WITH

- 3.1 The appended Infrastructure Funding Statement (IFS) provides a breakdown of the S106 income, spend and unspent monies by each type of S106 contribution. A detailed list of schemes provided as a result of financial contributions is attached to the IFS report at Appendix A, together with a list of contributions received and obligations complied with between 1 April 2023 and 31 March 2024 at Appendix B.

4.0 OUTSTANDING OBLIGATIONS

- 4.1 A list of all outstanding obligations is attached to the IFS at Appendix D. These are divided into those where triggers have been reached (Appendix D – Part 1), identifying the actions that are being taken to recover overdue contributions and non-financial obligations; and those where triggers have not yet been reached, for example because development has not started or insufficient dwellings have been completed (Appendix C – Part 2).

5.0 SECTION 106 AGREEMENTS NOT YET TRIGGERED

- 5.1 Appendix C Part 2 provides details of development sites where S106 obligations have been negotiated as part of the planning approval process, but the triggers have not yet been reached. We will continue to monitor these developments to ensure that we secure the payments / provisions as and when they are required by the S106 agreement. Further details are available in the Infrastructure Funding Statement in chapter seven.

6.0 OBLIGATIONS WHERE TRIGGERS HAVE BEEN REACHED

- 6.1 Eight developments have been identified as having outstanding obligations which are now due and are being pursued by the Council. Of these, 7 require financial contribution, totalling £343,676.25. The outstanding contributions and on-site provisions are pursued initially by contacting the parties involved and, where necessary, debt recovery proceedings have been instructed. Further details are available in the Infrastructure Funding Statement in chapter seven.

7.0 CONCLUSION

- 7.1 The proactive approach to ensuring S106 obligations are complied with has resulted in success in recovering outstanding contributions, and enabled prompt

identification when triggers have been reached on new developments. This approach will continue and should ensure that developers deliver their obligations. Where necessary and appropriate, legal action will be taken to ensure compliance with S106 obligations.

1. Introduction

- 1.1 This report provides a summary of the financial contributions which the Council has secured through Section 106 (S106) from new developments for recreation, affordable housing, off-site infrastructure works, ecological enhancement and employment land.
- 1.2 In summary, the report provides:
- An overview of S106 agreements;
 - The Council's internal process relating to S106 contributions;
 - The S106 contributions paid to the Council in the 2023/24 monitoring period;
 - S106 contributions estimated for future years; and
 - Projects delivered in the Borough via S106 agreements in the 2023/24 monitoring year.
- 1.3 The information included in the report will be updated annually and published on the Council's website. This will ensure that the most up to date information on the amount of developer contributions received from new development in addition to on where these monies have been spent is readily available to members of the public and other interested parties.
- 1.4 It is important to note that a time lag between receipt and expenditure of contributions is to be expected, as funds have to be allocated to specific schemes (for contributions from S106 Agreements signed prior to 6 April 2015), and in some cases contributions are for the long-term maintenance of land that has been or is awaiting transfer to the Council. However, the data reported within this document is the most robust available at the time of publication.

Headline summary

- 1.5 £867,128.08 was received through planning obligations (whenever agreed) in 2023/2024.
- 1.6 Of money received through planning obligations, £246,462.69 was spent in 2023/2024:
- Recreation: £141,789.84
 - Affordable Housing: £1,350.00
 - Employment Land Development Fund (ELDF): £52,675.00
 - Highways: £50,647.85

2. Section 106 Agreements

- 2.1 S106 agreements are legal contracts between the Local Planning Authority and the developer/landowners which include obligations that are essential to allow the granting of planning permission in certain circumstances.
- 2.2 For example, new residential developments place additional pressure on existing social, physical and economic infrastructure in the surrounding area. Planning obligations aim to balance this extra pressure with improvements to the surrounding area to ensure that a development makes a positive contribution to the local area.
- 2.3 The obligations may be provided by the developers “in kind” – that is, where the developer builds or provides directly the matters necessary to fulfil the obligation. This might be to build a certain number of affordable homes on-site, or ecological enhancement, for example.
- 2.4 Alternatively, planning obligations can be met in the form of financial payments to the Council to provide off-site infrastructure works, contributions towards providing affordable housing elsewhere in the Borough, compensation for the loss of employment land, recreation contributions and contributions towards ecological enhancements. In some cases, it can be a combination of both on-site provision and off-site financial contributions.
- 2.5 S106 Agreements may also include non-financial obligations such as provision of on-site affordable housing, access paths or the transfer of land.
- 2.6 Where an obligation involves the payment of financial contributions, on receipt by the Council, these contributions are effectively held on trust, and the Council are legally bound to spend these monies in accordance with the terms of the S106 Agreement. These obligations are then secured as a land charge on any successive landowner of the application site, should the site be sold on and developed by someone other than the applicant.
- 2.7 Regulations state that a planning obligation may only constitute a reason for granting planning permission for the development if the obligation is: The details of the obligations are controlled by statute and must pass the following three tests if they are to be considered when determining an application for planning permission:
 - Necessary to make the development acceptable in planning terms;
 - Directly related to the development; and
 - Fairly and reasonably related in scale and kind to the development
- 2.8 The Council cannot ask for contributions via section 106 planning obligations in certain circumstances:

“Planning obligations for affordable housing should only be sought for residential developments that are major developments...For residential development, major development is defined in the National Planning Policy Framework as development where 10 or more homes will be

provided, or the site has an area of 0.5 hectares or more. For non-residential development it means additional floorspace of 1,000 square metres or more, or a site of 1 hectare or more...Planning obligations should not be sought from any development consisting only of the construction of a residential annex or extension to an existing home.”¹

3. Bury Council’s Process for Requesting S106 Contributions

- 3.1 Where it is determined that on-site infrastructure and/or affordable housing required by policy is not appropriate, the Council will request from developers a financial contribution to meet these needs outside of the development site through a S106 obligation.
- 3.2 The financial contribution required for off-site recreation provision is calculated using Supplementary Planning Document 1 – Open Space, Sport and Recreation Provision in New Housing Development.
- 3.3 Supplementary Planning Document 5 – Affordable Housing Provision in New Residential Development sets the tariff for off-site affordable housing contributions and Supplementary Planning Document 14 – Employment Land and Premises provides guidance on when employment land contributions are required. These documents can be accessed on the Council’s website at www.bury.gov.uk/spd.
- 3.4 Contributions towards required highway works as a result of new development is agreed on a case-by-case basis, evidenced by an assessment of the impact the development will have on the local highways and mitigation works required to minimise this impact.
- 3.5 Once a S106 has been signed, it is an obligation, but it will only be realised if the planning permission is implemented and reaches the trigger point for payment such as commencement or prior to occupation. When the planning permission is granted, the S106 obligation is registered as a land charge which stays with the land, obligating any future owners until the terms are met.
- 3.6 Planning Officers, developers and the Council’s legal department work together to instruct new S106 agreements, requesting payments from the developer through to the spending of these monies by designated Council officers. Figure 1 shows this process in more detail.
- 3.7 Any financial contributions received by the Council but not spent within the timeframes set out in the S106 agreement will be identified during annual monitoring and will be refunded in accordance with the details set out in the specific agreement.

¹ Planning Practice Guidance 2019 Paragraph 023 ‘Planning Obligations’
<https://www.gov.uk/guidance/planning-obligations>

4. Monitoring Fees

- 4.1 The Community Infrastructure Levy (Amendment) (England) (No.2) Regulations 2019 now allow Local Authorities to charge a monitoring fee through S106 obligations to cover the cost of the monitoring and reporting on delivery that S106 obligation as described above. Monitoring fees can be used to monitor and report on any type of planning application, for the time of that obligation. However, monitoring fees should not be sought retrospectively for historic agreements.
- 4.2 The regulations allow monitoring fees to be either a fixed percentage of the total value of the S106 agreement or individual obligation; or could be a fixed monetary amount per agreement obligation; or Authorities may decide to set fees using other methods. However, in all cases, monitoring fees must be proportionate and reasonable and reflect the actual cost of monitoring.
- 4.3 Authorities must report on monitoring fees in their Infrastructure Funding Statements.
- 4.4 In Bury the monitoring fee was set at £550 per obligation, which is considered to be proportionate and will contribute to the Council's reasonable costs of monitoring each obligation. This fee came into effect from the 18th October 2019.
- 4.5 Between 1st April 2023 and 31st March 2024, £9,320 of monitoring fees have been received through S106 obligations to cover the cost of the monitoring and reporting on delivery.

5. 2023/24 S106 Contributions Summary

- 5.1 Over the twelve-month period from 1 April 2023 to 31 March 2024, Section 106 agreements have resulted in £246,462.69 of investment into the Borough, and £867,128.08 of income to the Council.
- 5.2 As of 31st March 2024, the Council had around £6,116,361.39 of unspent S106 contributions. In order to improve clarity regarding S106 contributions, this year's report includes a column detailing the amount of unspent and unallocated contributions.
- 5.3 As of 31st March 2024, £4,857,354.82 of the unspent S106 contributions has been allocated to specific projects, though it may take time to deliver and for expenditure to be drawn down. This equates to 79% of unspent funds. £1,259,006.57 was unallocated, however work to allocate these monies is ongoing and an additional £356,825.22 has since been allocated in the 2024 calendar year.
- 5.4 Table 1 below summarises income and expenditure in the twelve months from 1 April 2023 to 31 March 2024, and unspent contributions as at 31st March 2024.

Table 1: S106 Income, Expenditure and Balance

Expenditure type	Contributions received 1 April 2023 to 31 March 2024	Total amount spent 1 April 2023 to 31 March 2024	Total value of unspent contributions as at 31 March 2024 ²	Total value of unallocated contributions as at 31 March 2024
Recreation, local nature reserves and open space	£679,750.93	£141,789.84	£2,833,187.33	£0.00
Affordable housing	£35,875.00	£1,350.00	£2,086,250.16	£891,776.66
Employment	£0.00	£52,675.00	£587,633.53	£356,825.22
Highways	£151,502.15	£50,647.85	£575,891.91	£0.00
Public art	£0.00	£0.00	£33,398.46	£10,404.69
TOTAL	£867,128.08	£246,462.69	£6,116,361.39	£1,259,006.57

Figure 1. S106 income and expenditure 2023-2024

² Please note that these figures may differ from the 2022-2023 Infrastructure Funding Statement following an internal audit into S106 finances which has corrected some figures.

Figure 2. Total value of unspent S106 monies

Figure 3. Types of S106 contributions allocated and unallocated at 31st March 2024

Figure 4. The total amount of unspent S106 contributions allocated and unallocated as at 31st March 2024

5.5 It is important to note that a time lag between receipt and expenditure of contributions is to be expected, as funds have to be allocated to specific schemes (for contributions from S106 agreements signed prior to 6 April 2015), and in some cases contributions are for the long-term maintenance of land that has been or is awaiting transfer to the Council.

5.6 This is broken down into more detail in Appendix C.

6. Schemes Provided and Obligations Complied With

6.1 This section of the report summarises Section 106 Agreements by type of obligation. A detailed list of schemes delivered as a result of financial contributions is attached to this report at Appendix A, together with a list of contributions received and obligations complied with between 1 April 2023 and 31 March 2024 at Appendix B.

Recreation

6.2 In 2023/2024 £679,750.93 was received in recreation contributions.

- 6.3 During the same period, £141,789.84 of recreation contributions was spent. This has gone towards improvements at a number of sites including:
- Improvements to infrastructure at Starmount Reservoir and Blackshaw Brook Phase 1;
 - Improvements to public footpath at Elton Reservoir Phase 1;
 - Public Open Space maintenance at Radcliffe Paper Mill;
 - Barratt Estate SBI;
 - Kirklees Valley Maintenance;
 - Springwater Park & Sailors Brow access improvements Phase 1;
 - Prestwich Clough infrastructure;
 - Woodbank Garden improvements;
 - Refurbishment of Clarence Park Play Area Phase 1;
 - Improvements to play equipment, furniture, infrastructure and landscaping at St Marys Park Phase 1;
 - Burrs Country Park – infrastructure, access and river improvements to benefit people
 - Whitehead Park – work to raise the standard of the park including infrastructure and environmental improvements to support Green Flag;
 - Kirklees Valley Local Nature Reserve – significant environmental improvements to the site which will benefit people and wildlife, including enhancing the aquatic/wetland areas and improvements to infrastructure;
 - Burrs Improvements Supporting Volunteers Phase 11;
 - Kirklees Valley Maintenance; and
 - Maintenance of the Radcliffe Paper Mill site.
- 6.4 In terms of future spending, funding has also been allocated to a number of projects across the Borough, including works to play areas, ball zones, tennis courts, outdoor gyms, bowling greens and park improvements. The priority is to ensure that S106 recreation contributions are allocated within the area where the development takes place.
- 6.5 All unspent recreation contributions received up to 31st March 2024 have been committed to specific projects, with the exception of contributions paid upfront that can't be committed until commencement of development.

Affordable Housing

- 6.6 Section 106 Agreements have also required developers to make provision on site for affordable housing. In 2023/24 there were no affordable completions as a result of planning policy – this is due to a various reasons:
- housing completions overall appear to have slowed in 2023/24;

- the majority of the affordable homes on the site had already been completed; or
- completions were on sites where no affordable housing was required, either because:
 - they were small sites;
 - vacant building credit applied;
 - viability challenges prevented affordable housing delivery; or
 - they were approved via the prior approval route for conversion from commercial to residential, whereby affordable housing cannot be required.

- 6.7 In 2023/24 some of the previously completed properties have been subsequently re-sold, re-let or are under offer, to households on the Affordable Housing Scheme. A further 10 affordable properties were completed on 2023/24 on schemes brought forward by Registered Providers and the Council – these are not counted as S106 affordable completions because they are not provided by private developers as a result of planning policy requirements, but they are adding to the affordable housing stock and meeting needs.
- 6.8 The Planning Agreements allow the affordable housing units to be sold on the open market in certain circumstances, subject to 25% of the sale proceeds being given to the Council to spend on affordable housing elsewhere. One property was sold in this way between 1 April 2023 and 31 March 2024, resulting in a commuted sum payment of £35,875.00.
- 6.9 In total up to 31 March 2024, £2,839,708.16 in commuted sum payments has been received for affordable housing, of which £753,458 has been spent and a further £1,194,473.50 is committed but unspent. The remaining uncommitted contributions (totalling £891,776.66 up to 31 March 2024) will be spent in accordance with the Bury Housing Strategy and must be in accordance with the terms of each Section 106 Agreement. The Council is exploring opportunities to use the remaining uncommitted contributions to support and accelerate the delivery of additional affordable housing.
- 6.10 A total of £1.617m has been committed to bringing empty properties back into use as affordable housing in the Borough, of which £503,458 has been spent up to 31 March 2024, bringing 11 empty properties back into use. This has multiple benefits of removing the blight of empty properties and increasing the supply of affordable homes. Although no acquisitions of empty properties completed in 2023/24, three have since completed, an additional property has been transferred into the affordable stock and two further acquisitions are progressing, accelerating the use of the committed funds. The Council's empty property officer is continuing to seek out further opportunities to bring empty homes back into use as affordable housing.
- 6.11 A further £250,000 of S106 affordable housing contributions was used to support the residential development of the site of the former Radcliffe Times building for affordable housing.
- 6.12 In February 2024 £80,931.50 was committed (alongside Employment Land Development funding) to part fund a new Career Grade Planning Officer. The creation of this role will support the delivery of the PFE strategic site allocations, which will result in the delivery of around 1,575 affordable homes across a number

of strategic housing sites, as well as a large number of job opportunities for Bury residents at the Northern Gateway (Heywood/Pilsworth) site.

Employment Land Development Fund

- 6.13 As at 31 March 2024, the total unspent balance of the Employment Land Development Fund (ELDF) was £587,633.53. £230,808.31 of this has been allocated to various projects but is yet to be spent.
- 6.14 The remaining £356,825.22 was unallocated and unspent as at 31st March 2024 however work is continually on-going to identify specific opportunities in accordance with the approved ELDF Framework for Spending. As a result, in 2024/25 100% of the remaining funds have been allocated.
- 6.15 During 2023/24, £52,675.00 from the ELDF was spent on the following:
- ELR Trust Officer;
 - Bury Economic Strategy; and
 - Atom Valley Project Director.

Highways

- 6.16 In 2023/24, £151,502.15 was received in highways contributions. This is allocated to:
- the upgrade of a pelican crossing on Walmersley Road to a puffin crossing; and
 - highways improvements within the vicinity of the JD Campus at Pilsworth.
- 6.17 In 2023/24, £50,647.85 was spent in association with the Chamberhall development.
- 6.18 There is £575,891.91 of unspent highways contributions, which is allocated to several projects including:
- An additional lane at the slip road of junction 3 on the M66;
 - Improvements to Pedestrian connectivity; and
 - Measures to mitigate the impact of the development on the local highway network comprising CCTV, SCOOT revalidation, extra SCOOT loops and amendment of signal staging at the Harvard Road Signals.
 - Toucan crossing for pedestrians and cycle users in the vicinity of Market Street/Trinity Way.
 - The upgrade of a pelican crossing to a puffin crossing on Walmersley Road, north of Sunny Avenue.

Public Art

- 6.19 Following the publication of Government guidance which advised that planning obligations should not be sought if they are no considered necessary to make a

development acceptable in planning terms, financial contributions for public art are not currently being sought for new planning applications.

6.20 There was no S106 spend on the provision of public art projects in 2023/24.

7. Outstanding Obligations

7.1 A list of all outstanding obligations is attached to this report at Appendix D. These are divided into those where triggers have been reached (Appendix D Part 1), identifying the actions that are being taken to recover overdue contributions and non-financial obligations; and those where triggers have not yet been reached, for example, because development has not started or insufficient dwellings have been completed (Appendix D Part 2).

Outstanding S106 Obligations where triggers have been reached

7.2 Eight developments have been identified as having outstanding obligations which are now due and are being pursued by the Council. Of these, 7 require financial contribution, totalling £343,676.25.

7.3 In 2023/2024 £37,103.33 of this was recovered from the following developments:

- 50775 - Former Thrush Hotel, Thrush Drive, Bury, BL9 6JD. Recreation Contribution £13,674.08 received 17/01/2024.
- 65415 Victoria Mill, High Street, Walshaw, Bury, BL8 3AG. Recreation Contribution £23,429.25 received on 6/12/2023.

7.4 As such, £306,572.92 remained outstanding at 31st March 2024.

7.5 The outstanding contributions are pursued initially by contacting the parties involved and, where necessary, debt recovery proceedings are instructed. However, this can be a lengthy process.

Section 106 Agreements not yet triggered

7.6 Appendix C Part 2 provides details of development sites where S106 obligations have been negotiated as part of the planning approval process but the triggers have not yet been reached, for example because development has not yet commenced or insufficient dwellings have been completed. Recently lapsed or superseded permissions are included on the list for information, but these obligations will not be triggered. The terms of each S106 Agreement will specify how commuted sums can be spent. It is important to note that these developments may not all proceed as planned and there is, therefore, no guarantee that these funds will ever be received.

7.7 The Council will continue to monitor these developments to ensure that payments and provisions are secured as and when they are required by the S106 Agreement.

8. The Community Infrastructure Levy

- 8.1 In April 2015, the Community Infrastructure Levy (CIL) Regulations imposed restrictions on pooling S106 contributions. Local Authorities were not able to fund specific projects or type of infrastructure by pooling contributions from 5 or more separate S106 agreements. Collecting generic 'recreation' or 'employment' contributions was also no longer permitted. The Council was required to identify within a S106 Agreement exactly what project the contribution would be spent on.
- 8.2 These regulations have since been amended and came into force on the 1 September 2019. The amendments removed the restrictions on pooling S106 contributions.

9. Conclusion

- 9.1 The proactive approach to ensuring S106 obligations are complied with has resulted in success in recovering outstanding contributions, and enabled prompt identification when triggers have been reached on new developments. This approach will continue and should ensure that developers deliver their obligations. Where necessary and appropriate, legal action will be taken to ensure compliance with S106 obligations.

Appendix A – Schemes Provided via S106 Contributions
