COMMENT: This isn't the place to build another school. There is already a school + nursery. There is no where for anymore traffic in the morning + afternoons sometimes evening if school has other events. People who live around the area already struggle to park as I have family that live

~~NAME:~~ here. if children escape off premises

COMMENT: you're putting the vulnerable at risk with the child's behaviour, needs ect.

There are enough schools in the area already. you're taking away somewhere where the children can play football and other forms of social and exercise.

The field is sloped at the back and

The community garden will not be looked after by Grounds Maintenance - and will not be looked after. The children use this as a football pitch/cricket in summer as parents will not let their children go to Bolton Rd Park. We have limited green space in an area of

NAME: multiple layers of deprivation (as defined

COMMENT: by pride in place, I do not think the people of this area need a PRU in their area.

We have a high level of drugs alcohol dependent people in single flats who have been evicted etc. we also have a ↑ level of H.M.O's + Secco properties within a small

NAME: Town.

COMMENT: These children will have emotional and trauma related issues and will be vulnerable to becoming easy targets for drug dealers.

We have a high level of ASB / knife crime / robberies etc. in this area. The police are constantly in the area.

→

The volunteers who look after multiple green spaces will not look after the

Community garden. They are not appreciated & the expectation will be that,

Also parking & getting down Milton Rd is horrendous at any time of day. - Older people live opposite what about emergency vehicles

Plus, the parking @ Raddiffe Primary will be horrendous. - And as such parents will dump their cars to drop the children.

Also I understand there are already issues at the knp. PRU. The children come out at the end of day, hang around to wait for transport have caused damage to property etc.

COMMENT: We live on Wordsworth Ave & have had problems in the past with Teenagers in the area causing damage noise & disruption as well as damage to buildings & gardens. This school will only add to the problems we already face.

It is the only green space in the area for local children to play under supervision and the school has been using this space to educate children on the local environment and wild life. We just do not want it on our only green space especially as all the evidence points to the benefits of this to the Elderly & Vulnerable Citizens

NAME:

COMMENT: We live opposite the field and are against this school. It will cause congestion this is only one of the green spaces around here and also the children are safe to play on there. It is a large building and it's not the right place for it.

NAME: Sarah Mulligan 21 Milton Road.

COMMENT: I appreciate that these children need a school, my own daughter did BUT this is not the place. We already have so much antisocial behaviour in this area that I don't think it needs adding to. Also that field is used by so many that it feels such a shame to have it taken away.

Milbon Meadows is a well used & loved community space in the area which should not be lost to make way for more infrastructure. I would implore you to consider whether Milbon Road is a suitable destination for vulnerable children given the crime rates & anti-social behaviour in the area. Additionally, has there been any consideration to home owners whose property values will decrease due to this proposal?

This is the wrong place to build this school. It brings nothing to this highly deprived high crime low income area.

COMMENT: This plan is ridiculous we have a lot of problems at the moment with traffic druggies. This site is not suitable. Whoever wants this have it in front of you home. My house is facing this and my home is going to decrease in value. We don't want a school for 140 kids coming from all over. Milton Road at this moment in time is already congested due to residential parking and double parking with residents. The Driving down Milton Road at this moment you have to drive single file. At the end of Milton Road joining on to Wordsworth Ave the traffic at morning & afternoon is very congested due to the traffic at the Junior School.

Residents & dog walkers use this field to help with their mental health !!!

Comment: Deprivation of area on Milton Road playing field. This field has been left unattended for numerous years. Due to the Council stating they didn't have the funds to maintain the field.

This Bolton Road estate area is demographically challenged. There are children that live in this area & only have this field to access.

They have £17 million to build this facility

Absolutely stupid to even think that this is a good idea, its in the middle of an housing estate that is already used as a "ratrun" for cars when Bolton rd is busy, at the end of the day and morning with cars, children have to waver past this proposed school to go to their schools and I am worried for the extra traffic, this is a school for "naughty children" aged 11-16 years, I do not want

COMMENT: Fear of abuse from these children, I know it will not be all the children but there is going to be some that even this school cannot control, we need green space, I walk everyday around this field as it helps my mental health. Bury council use to cut this, but because of cut backs, they stopped. makes you wonder now if this is why they stopped, with this in mind

NAME: you have old pensioners living around

COMMENT: this area, some right next to it, this is not going to be pleasant for them, when they are in their back garden listening to 11-16 year olds in the playground probably swearing. At the end of the day this is a school for children that will not attend mainstream school, so you are putting a lot of these children in one area.

1) Why is this school/building being built on a green site rather than a brown site? This area is used for children/teens to play football/sports; dog walkers and community gatherings during summer and celebrations. Also, air pollution.

2) Following on from the above, this site used to be used for mining. Years ago, it wasn't deemed safe for building on, so how is it deemed acceptably safe now?

3) Traffic + elderly residents -

COMMENT:

There are 6 Primary schools already this side of Radcliffe, at least one nursery and a children's centre, which is used for midwife appointments. Traffic and parking in the local area is ridiculous. Parents/cars park on roundabouts, double yellows, on corners etc, imagine what the traffic is going to be like once this school is built. Or how long until a serious accident?

- The elderly in Moorfield already struggle with local children causing trouble to and from school. ~~As~~ A lot of the elderly in this building ~~are~~ are fragile, have anxiety etc and they utmost need protecting.

4) The crime rate in the area is out of control. There will be a negative knock on effect to the community and potential children attending this new school, especially with them being vulnerable.

5) The communal gardens are a great idea, but the council will NOT keep on top of maintaining it. They have funding and can't be bothered to take care of current communal gardens or basic gardening of areas that are already funded. So why will this communal garden be any different. It also won't be long before the area is unsafe with drug use and vandalism.

6) We're not against the school being built, but just not how it should be built. Some of it is built with

What assessments has been made of the
impact of losing this green space in a Radcliffe

Name: DAVE ASHTON

Comment:

This will have a detrimental effect on the estate. We already have 2 schools around the corner from the proposed site. This green space which has been used by residents since 1950 is used for wellbeing. Losing this will have a detrimental effect on the environment and the locals will suffer from this recreational loss. There are vulnerable people / elderly locally and the fact that there would be some children who will not be escorted is a worry. This area has also over recent years since the housing of out of towners, seen a high number of drug dealers move in. The children would be prime targets

Name: The fact that the proposed Oak Partnership brought their security in is a disgrace. They had been told that this was a rough estate.

The locals need to have their "open" green space and not another school, causing traffic issues

Bury Council - take notice of your locals. Stop using green areas to relocate buildings so that that land can be sold for profit! Radcliffe has had a bad deal for too long.

Comment: I don't agree with this Proposal as there are too many druggies around. The person who lives next to the field is currently in prison for stabbing someone. The children of Milton road play football on this field and will lose that. As a community we hold bonfires on there so it is safe for the children to watch and watch fireworks, if this is taken away what will they do. There is already a lot of anti-social behaviour between drugs and stabbings. Vulnerable children should not be around this. I feel this proposal should move site.
