## 1.0 BACKGROUND

1.1 The council publishes a Corporate Plan each year with progress updates reported to Cabinet each quarter. This report outlines performance against the plan for quarter 1 2013-14.

## 2.0 SUMMARY

2.1 There is evidence of a good start to 2013-14:

2.2 Of the 53 corporate performance indicators detailed in the corporate plan, 38 of these have outcomes for quarter 1 on which we can report as some are collected annually. 19 indicators (50%) have demonstrated an improvement on the out turn for 2012-13 and/or exceeded the target set for this year and 8 indicators (represented as amber on the chart) have just fallen short of meeting our expectations. Considering the financial situation and other challenges facing services, this level of performance at the beginning of the year is positive and demonstrates the potential to meet the high standards we set ourselves as a Council by year end.

2.3 8 areas under achieved:

- 5 of these indicators have not produced the expected outcome due to changes to working practice. More challenging assessments have been introduced to identify achievement at Key Stage 2 for ethnic minority groups and children on free school meals. The introduction of personalised

social care packages has meant it is taking more time to complete the assessments and put these into practice so the targets for timescales have not been met. It is expected that this will be improved upon and the target will be achieved by year end.

- The number of households living in temporary accommodation is 50% above target but is expected to reduce over the course of the year as the service is now discharging the Council’s homelessness duty in the private sector, reducing the reliance on social housing for resettlement.
- 66.7% of children and young people in care were placed for adoption within 12 months of the decision and who remained in that placement. This figure is based on a small cohort (3), a better representation of performance against this indicator should be available at year end as the cohort group will have increased.
- 1 indicator is outside of our control to influence the performance management. The percentage of children becoming the subject of a Child Protection Plan is above the target set.

2.4 There are 3 indicators where progress cannot be analysed, which is an improvement upon last year. Data from external sources has not been available to calculate these outcomes for quarter 1. Work is ongoing to review the data set for future Corporate Plans so that non-reporting is minimised and the results selected provide a fair and meaningful reflection of the Council’s position.

2.5 Analysing the results by the Council’s priority outcomes, some progress is being made across all four areas:

2.6 At this early stage outcomes for supporting our most vulnerable residents face the greatest challenge. Efforts are being made to improve the position over the coming year. A more accurate picture will emerge over the next two quarters as more information becomes available.

### 3.0 CONCLUSION AND RECOMMENDATIONS

- 3.1 The report provides details of the progress made at quarter one 2013-14.
- 3.2 Overall, performance against the corporate plan indicates a mixed picture with 19 out of 38 (50%) of indicators achieving target and/or performing better than last year. In the context of current pressures and resource limitations, some deterioration in performance may be expected. Where we have not performed as planned, the reasons have been identified and in most cases a proactive approach has been adopted to improve these outcomes throughout this year.
- 3.3 It is recommended that Cabinet accept the report and note the actions being taken to address areas of under achievement against targets.
